THE ADVANTAGES AND OBJECTIVES OF USING ABOMIN

- ✔ More productivity and more flavour
- ✔ Leaf healthier
- ✔ Longer shelf life
- ✔ Plant growth less stressed

DOSAGE AND METHOD OF USE

It is possible to use Abomin in a single type or also to combine the three types of product together (Abomin, Abomin Complex, Abomin Amino).

BASIC APPLICATION

APPLICATION

(7 days before transplantation)

900 Kg per Ha

1500 Kg per Ha

1100 Kg per Ha

Apply along the row

FOLIAR APPLICATION

4-5 APPLICATIONS

(pre- and post-flowering)

30 Kg

Apply with water

IDEAL FOR

Land with > 1.5% organic substance

Also land with organic substance < 1.5%

Accelerates the Abomin process

For foliar application on all cultivations

COMPOSITION

ELEMENTS	PPM	ELEMENTS	PPM	ELEMENTS	PPM	ELEMENTS	PPM
Potassium (K)	7200	Cobalt (Co)	31	Copper (Cu)	48.74	Samarium (Sm)	8
Calcium (Ca)	56200	Selenium (Se)	0.4	Nickel (Ni)	5.3	Germanium (Ge)	1.1
